

BUNN PLASTIC TOUCHLESS FAUCET CONVERTER

Program Frequently-Asked-Question

What is the Plastic Touchless Faucet Converter?

- The plastic faucet converter was designed to provide a more permanent touchless solution for BUNN coffee & tea dispenser faucets equipped with either a vertical pedal or vertical standard Tomlinson faucet.
- The plastic faucet converter replaces the existing faucet handle on a dispenser faucet.
- Users dispense liquid by using their cups to engage with the faucet converter, not their hands.
- The push force necessary to initiate beverage dispensing meets the ADA requirement of less than 5lbs force.

How much does the Plastic Touchless Faucet Converter cost and how can it be ordered?

- Each touchless faucet adaptor costs \$6 (excluding tax)
- Touchless adaptors are available to order in Salesforce (#12467714)

Does the Plastic Touchless Faucet Converter work with all dispenser faucets?

- The plastic faucet converter was designed to work on BUNN "Pedal" handle and standard handle "Tomlinson" type faucets found on 1.5 gallon, 3.0 gallon and 3.5 gallon coffee & tea dispensers.
- The plastic faucet converter **will not** work on Fetco dispensers and on dispensers that utilize a horizontal faucet handle.

I have a large customer with many servers, is there a limit on how many I can order?

- There is currently no limit on the number of touchless faucet adaptors that can be ordered.
- **Before** ordering, check with your EOS to ensure availability.

Plastic Touchless Faucet Converter

Standard Handle

Pedal Handle

Vertical Handle
