

# COLD BREW & NITRO COUNTERTOP SYSTEM

## Intake Hose Elbow Replacement Instructions

Nestlé  
Professional  
Solutions

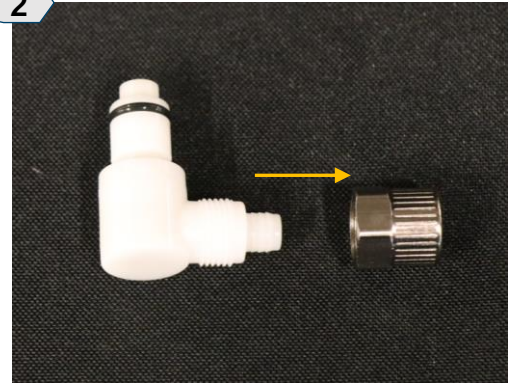

Below are step-by-step instructions on how to replace an elbow coupling located on either end of the Intake Hose Assembly for the Cold Brew & Nitro Countertop System.

1

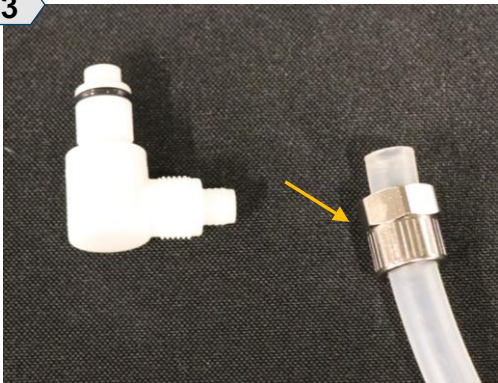

3/8 PTF Valved Elbow Coupling Insert

2

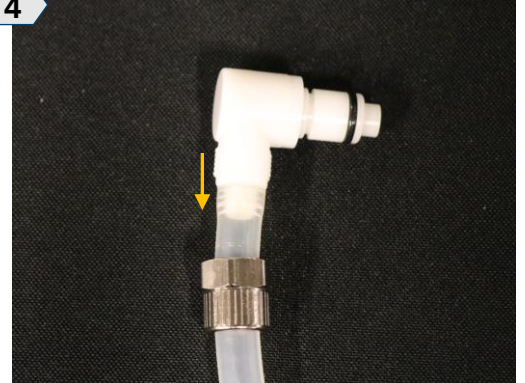

Remove the chrome nut from the elbow coupling by unscrewing it in the counterclockwise direction

3

Slide the chrome nut over the end of the Intake Hose

4

Insert the barbed end of elbow coupling into the Intake Hose.

5

Slide the nut up the Intake Hose and screw onto the elbow coupling in a clockwise direction until tight
